

FORTI-MIN + ZINC OXIDE TS-99

Product Specification Sheet

Forti-Min + ZINC OXIDE TS-99 is a low dust, flow-able mineral supplement formulated to help address calcium, magnesium, sodium and zinc requirements through summer into autumn.

PRODUCT INGREDIENTS: Limeflour 66.5%, magnesium oxide 5.5%, salt 12%, zinc oxide 6% and molasses 10%.

KG OF FEED PER COW PER DAY FED	ADDITION RATE OF FORTI-MIN PER TONNE OF FEED	% OF TOTAL FEED
2kg	100kg	10%
3kg	75kg	7.5%
4kg	50kg	5%
5kg	40kg	4%

FEEDING RECOMMENDATION

Add Forti-Min Zinc Oxide TS-99 to the diet through the feed at a rate of 200g per cow per day. Please refer the the chart above for recommended addition rates per ton of feed per cow per day. Do not feed less than the minimum rate unless the herd is meeting its zinc requirements from other sources e.g. ZinMol.

NOTE

The above recommendation is based on a 450kg lactating dairy cow. Using the above guidelines, each cow will be offered 50g elemental calcium, 5.5g elemental magnesium, 8.5g elemental sodium and 9.6g elemental zinc.

IMPORTANT NOTES

Do not allow access to other zinc products unless the combined zinc intake is recommended for facial eczema prevention. Do not exceed the maximum rate as overdosing may result in zinc toxicity. Zinc requirements will be relative to iron and copper intake.

The feeding of magnesium supplements to dairy cows may increase their risk of clinical salmonellosis. It is recommended that veterinary advice is obtained to ascertain potential risks associated with the use of this product in your environment before product is used.

DO NOT FEED FORTI-MIN TO DRY COWS AS THIS MAY LEAD TO INCREASED EXPOSURE TO MILK FEVER.

STORAGE

Store in a dry area and ensure all precautions are taken to store away from bird and rodent infestation.

DISTRIBUTOR

Agrifeeds™, PO Box 627, Hamilton 3240,
Level 1, 18 Rostrevor Street, Hamilton 3204

**Zinc Oxide TS-99 is registered pursuant to the ACVM Act 1997,
No. AO10933, as an aid in the prevention of facial eczema in cattle and sheep.*

BALANCED NUTRITION BETTER RETURNS®

Whilst this product meets the quality standard for an animal feed supplement marketed in New Zealand, the farming environment in which this product is used and how this product is used is beyond the control of Agrifeeds™. The use and application of this product requires a proper level of skill and understanding of good farming practices for the feeding and care of dairy animals.

It is a condition of sale that the purchaser of this product is solely responsible either directly or by way of supervision for its proper, skilled and informed use or application in the farming environment.

Agrifeeds™ and its sales agents (including Fonterra Farm Source) are neither responsible nor liable for the improper or inexperienced or uninformed use or application of this product and disclaim all and any liability to the fullest extent at law for any direct or indirect, special, or consequential loss, damage, or any other claim or liability of whatsoever nature including but not limited to results obtained, animal impairment, injury or death arising out of or flowing from such improper or inexperienced or uninformed use or application of this product in the farming environment.

All statutory, regulatory and common law warranties, guarantees, duties and any other obligations of whatsoever type or nature inconsistent with the above including but not limited to those under the Sale of Goods Act and the Consumer Guarantees Act are to the necessary and fullest extent excluded.

The feeding of magnesium supplements to dairy cows may increase their risk of clinical salmonellosis. It is recommended that veterinary advice is obtained to ascertain potential risks associated with the use of this product in your environment before product is used.
